Years Trading: Stocks _____ Futures _____ Options _____ Other _____

My net worth excluding my house is: GREATER or LESS THAN \$100k.

I would consider my risk tolerance level: LOW MODERATE HIGH

The size of my trading account(s) for active trading is: \$_____.

_____ I do not currently have a trading account.

What is a realistic expected annual return in trading for you?

I am primarily interested in:

- | | |
|--------------------------------|---------------------------------------|
| _____ Actively trading stocks | _____ Actively trading futures |
| _____ Actively trading options | _____ Day trading |
| _____ Long-term trading | _____ Long-term investing _____ Other |

_____ If other give a brief description

What is your general goal in trading?

Are you willing to learn about different styles and trading strategies if they could possibly help you reach your trading goals?

How many black box trading systems have you used in the past?

What was the longest you traded (in months) any black box system?

How many non-black box trading systems have you used in the past?

What was the longest you traded (in months) any non-black box system?

How many trading methods have you developed?

How many trading education courses have you purchased?

What were those courses (excluding any Ryan Jones courses)?

Have you ever used a money management strategy consistently with any trading account in the past?

If so, what was the result and for how long?

What was your most stressful trading experience, why and how long did it last?

What was your least stressful trading experience, why and how long did it last?

How many hours per week will you be able to commit to the training and trading?
